

National Science Foundation Science & Technology Centers Summer Research Experience for Undergraduates Program

The **National Science Foundation Science & Technology Centers Summer Research Experiences for Undergraduates Program** is an excellent opportunity to gain hands-on research experience in a cutting-edge field. If you are an undergraduate majoring in science, technology, engineering or mathematics, we have paid internships available for you!

For more information and how to apply

Please access the www.nsfstc.org website for direct links to each of the 17 Science and Technology Centers located at nationally renowned universities across the US. Application information and deadlines for each Center's program can be found on their individual website. Deadlines for these programs begin in mid-January.

For additional questions please contact

Wesley Uehara
Education Project Manager

Underrepresented students are strongly encouraged to apply!

Science & Technology Centers

BEACON: Center for the Study of Evolution in Action
Center for Advanced Materials for Purification of Water with Systems
Center for Biophotonics Science & Technology
Center for Coastal Margin Observation and Prediction
Center for Dark Energy Biosphere Investigations*
Center for Embedded Networked Sensing
Center for Emergent Behaviors of Integrated Cellular Systems
Center for Energy Efficient Electronics Science
Center for Integrated Space Weather Modeling*
Center for Layered Polymeric Systems
Center for Materials and Devices for Information Technology Research
Center for Microbial Oceanography: Research and Education
Center for Multi-Scale Modeling of Atmospheric Processes
Center for Remote Sensing of Ice Sheets
Center for Science of Information*
National Center for Earth Surface Dynamics
Team for Research in Ubiquitous Secure Technology

* Not hosting in 2011

**Paid 2011
Summer
Internships!**
